

STRATEGIC TECHNICAL LEADERSHIP FOR YOUR CLIENT PROJECTS

SharpLogica, Inc

Mirano Galijasevic, PhD (Computer Science)

*Product studios and agencies need senior technical oversight for complex builds. I provide **CTO-as-a-service**, **architecture authority**, and **delivery management** - so you can focus on design and product while we handle technical strategy.*

How I Support Your Client Work

CTO-as-a-Service

Executive Technical Leadership for your clients

- Architecture decisions and technical roadmap
- Client-facing CTO presence (board meetings, investor updates)
- **Typical engagement: 3-6 months**

Technical Delivery Management

- Bridge between design/product and engineering
- Sprint planning, backlog prioritization, technical scope
- Risk identification and mitigation
- Keep projects on track technically

Engagements Models

- Project based (fixed-scope, 2-12 weeks)
- Embedded (2-6 month)
- On-demand (hourly, as needed)

Architecture Design & Oversight

Scalable, maintainable architecture from day one

- Technical design authority for complex systems
- Code review and architecture governance
- Cloud-native design (Azure specialist)
- **Typical engagement: 3-6 month**

Rescue & Stabilization

When client projects go sideways technically

- Architecture fixes and delivery recovery
- Fast ramp-up, immediate impact
- **Typical engagement: 4-12 weeks**

Why Studios Work With Me

- **Proven at Scale** (30+ years building enterprise systems, led 330+ engineers as VP of Engineering)
- **Built systems for Fortune 100 companies**
- **Client Confidence** (CTO-level expertise gives clients confidence in technical decisions)
- **Your Team Stays Focused** (You handle design, product, UX, I handle technical strategy, architecture, cloud infrastructure)
